Carryward Freight Services

leading the way to success.....

Carryward International

Who We Are and What We Do

We, Carryward Freight Services are a member of Carryward International Freight Services Group. The group is one of the largest global freight forwarding and logistics providers across the world.

From small packages to full containers, conventional shipments and special projects transport by sea, air or road around the world is nowadays a question of organization and communication. Therefore specialists are required who are able to work with the means of the 21st century and who are globally present in this field. Even in the time of computers and satellites, personal involvement is becoming more and more important as it is people who solve problems, not machines. That is the reason why Carryward Freight Services (CFS) is launched in Qatar.

Efficiency, flexibility and capacity to find customized solutions according to clients needs are the reasons why Carryward Freight services (CFS) is so successful; beside this an advanced computer system, a worldwide network of agents, availability of modern and reliable means of guaranteed transport options with secure and punctual deliveries everywhere come as standard.

The company's logistic services include Sea Freight, Air Freight, Land transportation across GCC, Customs Clearance, Warehousing, Local container transportation and Heavy equipment services etc.

We are inviting you to join uncompromised and professional Logistics service provider group which is Carryward Freight services Group. We are guaranteeing each customers 100% customer service.

We can lead your Way to success.,,,,

(Management – CFS Doha)

Our Customers & Our People

At Carryward Freight Services (CFS), we treat each customer relationship as a unique partnership. Each business has unique requirements and you expect your logistics provider to be able to efficiently and effectively handle your business. With our evenly distributed revenue base by product, we are indicating that we aren't heavily focused on only one product.

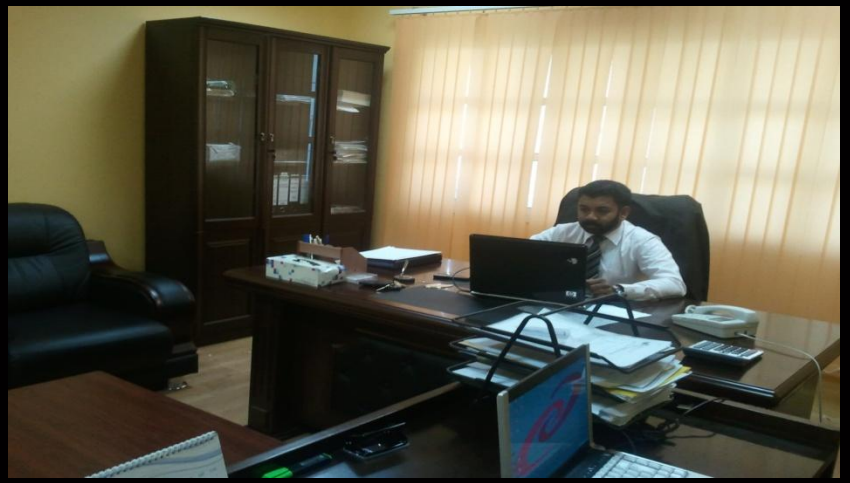
Our Customers

The way we make our product mix work for your business is by putting our strategies to work, we are able to give our clients several options in which to manage their freight.

Our investments are made in people and systems and not planes and trucks, which drive our people to take care of the clients day to day business are incentivized to not only maintain, but grow, the business because they are given bonuses based on the growthoftheirdepartment.

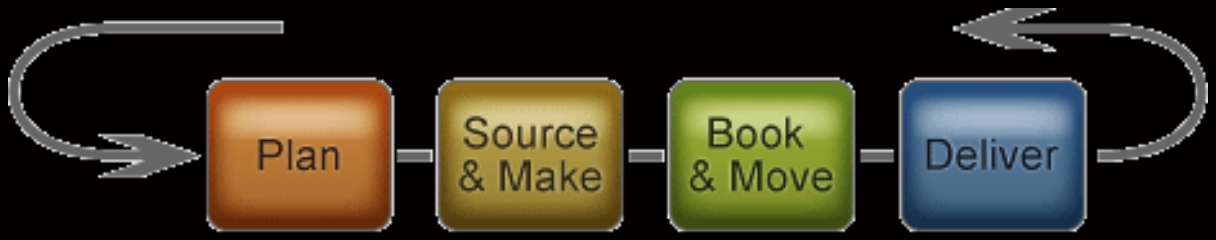
Being the only company who incorporates organic growth vs. acquisition we are then able to give our clients and employees peace of mind knowing their day to day business won't be disrupted by merger pains; our systems integrity is kept intact, not disrupted by companies whose business was founded on different platforms. The difference is that our customers are most interested in the quality and consistency of service we provide regardless of the country in which we're doing business.

DOHA - FACILITY



Our Services

Carryward Freight Services specializes in providing flexible logistics capabilities that start from the planning stage, and go all the way to the delivery of your goods. We listen to your unique business needs and can jump into whichever part of the logistics supply chain you need us, be it Plan, Source/Make, Book/Move or Deliver. All of our solutions are developed internally, including Air cargo, Ocean cargo, Customs Clearance, Land Transportation across GCC, Domestic services, Warehousing and Distribution, Heavy Equipment Supply, import and export compliance.



Plan

The supply chain process begins with clearly understanding your constraints and designing your supply chain based on these variables. When planning with CFS, you have access to a knowledge base of logistics industry experts that will assist with customs compliance, export restriction controls and risk management.

Source & Make

Sourcing decisions require you to have knowledgeable information on duties, quotas and landed costs. Production and inventory management then occurs and shipments are prepared. We lend expertise when sorting out the sourcing variables, creating online bookings and preparing the necessary paperwork to expedite the start of the shipment cycle.

We have the ability to consolidate cargo and manage your orders every step of the way, using our Order Management services. Our Distribution services teams help with vendor management inventory, seasonal capacity planning and in many other ways.

Book & Move

When shipments leave the dock, businesses require visibility and control of their freight. Clearing customs and transitioning between different modes of transit requires trust in your third party logistics provider. We will guide you through the shipment movement, whether choosing our Ocean or Air Freight services, and whether you are shipping domestic or international. We will provide you with access to detailed information on your freight, including customs and cargo release.

Deliver

As shipments approach their destination, they may require in-transit assembly, product merge and warehouse delivery. This stage of the supply chain process also requires strict release measurements and data visibility. Our Distribution experts have the facilities to handle order fulfillment and spare parts management at destination in anticipation of demand fluctuations. Our strong network team will make sure the freights are delivering to the final destination without any damage or headache to your supply chain cycle.

Air Freight Services

We understand that air freight is a premium and costly service, so our program focuses on quick transit and constant communication, combined with the ability to seize cost saving opportunities.

As we have contract agreement with appointed IATA agent for all major airlines, we provide a complete package of air logistics services through our global network of experienced professionals and state of the art tracking technology.

Air freight has grown over the past 20 years since the inception of CFS to become a very important transport option in our range of services. Using a range of major airlines, offering both direct and more economic transshipment services ensures that we are able to match exactly the needs of our clients in price, frequency, and speed of arrival.

Carryward Freight Service provides air cargo services to every major continent in the world including North America, Latin and south America, the Far and Middle East, Indian Sub-Continent, Europe, Australia, New Zealand and South Africa.

Consolidation:- Through CFS's appointed agent consolidation services, we provide the best transit time available and frequent flight schedules, flexible airline scheduling, competitive rates and cost savings.

Ocean Freight Services

Carryward Freight Service is uniquely positioned to handle all aspects of your shipment from launch to catch. We offer a full array of ocean related services including Ocean Forwarding, LCL and FCL container management as well as customer-in-house services. Our experienced professionals are trained to guide you through the complexities of global shipping. We can offer a single-source solution to and from any point worldwide keeping you informed of your shipment status at every step. Through our Ocean division you get complete, professional service with our can-do attitude. Our employees use the latest information technology and computer systems to manage your shipment through the delivery cycle.

The relation between speed, volume, and price means this is the obvious transport of choice in many cases. In order to safeguard and guarantee our clients interests, collections, handling, storage and loading of freight is all handled directly by Carryward Freight Services (CFS) personnel.

Land Freight Services

Road transport services operated by CFS a wide range of differing vehicles to meet the full range of different cargo transported on behalf of our customers. We have FTL services across GCC for fulfilling land freight demands of our valued customers.

Customs Clearance Services

We have very efficient and very fast customs clearance services at Sea port, Air Port and Abu Samra Border. This will enable our customers to clear out there freight from customs without having any delay. Through accurate and very efficient customs filing, we can clear out cargoes very fastly and hence we can avoid errors in duty filing. In Air Port and Abu Samra Border we are providing 24 hour services to our valued customers. We don't hesitate to participate in government prototypes where we see a benefit to our clients.

We emphasize minimizing the time involved in the release process, so our customer's overall supply chain processes are not obstructed. In a supply chain process, any "waiting" time is a waste, and we are focused on eliminating waste.

Warehousing & Distribution:-

The company provides warehousing and distribution solutions that help clients improve inventory management, reduce operating costs and speed order cycle.

We bring unmatched expertise in managing dedicated and multi-user facilities providing services that support clients. Specialized, value added services focus on needs of specific industries, including consumer packed goods, automatic, industrial equipment, consumer electronics and consumer durables.

We provide facility of booking storage area on rented basis for short term or long term. As the warehouse has been provided with a multi user computer facility to maintain the stock on daily, monthly & yearly basis.

Comprehensive Distribution and Warehousing Services

Large storage Space

Project Cargo services

Carryward Freight Services offers all the project handling capabilities, versatility, and expertise you need for your project cargo of any size: heavy lift, flat racks, open tops and oversized custom crating. Your large projects will be managed at our station by experienced personnel and handled cost-effectively and securely without delays or penalties. We have a reputation of consistently delivering cargo before the shipping cut off.

Carryward Freight Services

Packing & Crating Services

Crating is the key to successful shipping. Our crating and packing services offer superior protection and cost efficiency. World Trade Distribution designs crates based on sensitivity and weight of the freight, ensuring they are strong enough to support a like crate stacked on top. During the crating process, all cargo is secured and labeled inside the crate and on each of the four external sides. This allows for accessibility by customs agents and ability to safely re-secure.

Crating Sample

The Management :-

The directors intend to provide a personalized service, by which, we are at the disposal of our clients in assisting the developments of their business.

Our experience is drawn from not only freight forwarding but also working for both airlines and shipping companies. This, we feel, gives us an edge over most freight forwarders, having a greater understanding of the industry.

The Team

Speed, efficiency and accuracy are of the essence in providing a flawless service. With the practice of the aforementioned, the wealth of experience and constant training, our small but dedicated team of operational staff will be able to accommodate any individual requirements of our clients. Good communications are fundamental to the smooth running of any business, in particular, the freight industry. Here at Carryward Freight Services, we Endeavour to provide our clients with up to date information on their consignments, thereby ensuring that all parties involved are fully aware of the progress.
